It is with pleasure that we, from MDC Oil & Gas (SK320) Ltd., share the following comments and key points on the services rendered by Delta Force Security for the **Provision of Temporary Security Personnel (Bid Evaluation Room)**.

Delta Force Security has been an excellent service provider during our short-term needs in the area of security and surveillance for our Bid Evaluation Room. They are dependable and reliable – a must have trait for any organization providing security services.

The on-site personnel, Azahar bin Anuar did a professional job in keeping the confidentiality and enforcing regulations of the Bid Evaluation Room; and upholding the order of the Bid Evaluation Process.

We highly recommend Delta Force Security to any organization seeking services of its kind. They have provided the resources and expertise to successfully meet our request even at the very last minute. We have no hesitation in using Delta Force Security again for our future requirements.

Yours faithfully,
On behalf of MDC Oil & Gas (SK320) Ltd
